## 1. Time and Place

The group meeting for the MCI Group Project was held in online(Teams) at 7:00 pm on **Monday, March 17, 2025.**

## 2. User Stories Discussion

- Tight timeline and the necessity to build the infrastructure first.
- Ask Dr.Li about it and follow suggestions from opinions received.

## 3. Front End and Back End

- Focusing on user stories one and two in the first sprint, and user stories three and four in the second sprint.
- Using omdpapi.com for movie materials. This resource will be used for API connections and movie data.
- The team decided to use Supabase, a beginner-friendly backend platform, due to its ease of use and current trendiness.

## 4. Prototype

- The team provided feedback on the base layout, suggesting changes such as adding a user profile page and refining the navigation and search functionalities.
- Combining the movie details page with the review page to streamline user experience and provide all relevant information in one place.

## 5. Management

- Save all documents on the main branch in GitHub.
- Put the document draft in the Teams chat before changing it in the main branch

## 6. To-do List

- Ask Dr.Li's opinion, prepare questions (Weian)

- Ask for comments and expectations about user stories.
- Request approval of the Supabase program to ensure that the platform meets project requirements
- Ask about expectations about AI integration(Is it ranking or what is AI supposed to do in our project)
- opinion about the frameworks

- Refinement of prototype diagrams . The prototype should include the home page (login and logout), movie details page, user page

- Organize the user stories into a document and share it with the team(Zixuan)

- Create time-sheet folder on GitHub.(Silin)

- Prepare for the next meeting on Friday, March 21, 2025, at 7:00 PM.
