

# Minutes of the Client Meeting

Thursday 22 May 2025

**Secretary** Zixuan Li

**Members** Weian Liu

Silin Ren

Zixuan Li

Daming Chen

Emmanuel Philipose Antony

## Apologies

None.

## Time and Place

The client meeting for the NL1C Project (Sprint4-Week1) was held on **-Thursday 22 May 2025 at 1:00 PM in Ingkarni Wardli 5.56 Meeting Room.**

## Key Discussion Points

### 1. User Profile Page

The current page uses hardcoded JSON data to simulate user info. This needs to be replaced with real data fetched from MongoDB.

Layout needs improvement: enlarge and center the name/description section, taking inspiration from user profile designs on platforms like Reddit.

The user review display feature is incomplete — clicking on a review should redirect to the relevant movie detail page.

### 2. Backend Integration

The `get_current_user` API is not yet fully integrated with the frontend. Debugging and testing of the authentication flow via FastAPI documentation is required.

Postman tests confirm that the backend can return user data correctly, but frontend integration is still pending.

### 3. Testing Standards

Test Case Format

Excel is to be used for managing test cases (not Word).

Required fields: Case ID, Test Scenario, Steps, Expected Result, Actual Result, Status (Pass/Fail).

Screenshots should not be attached directly in test cases; they should only be added to Jira tickets for defect reporting.

Testing Strategies

Black-box testing will focus on complete functional flows (e.g., registration → login → review submission).

Boundary Value Testing: Validate input fields at their limits (e.g., field length, format).

Equivalence Partitioning: Separate valid and invalid input categories.

#### **4. Project Timeline**

Final presentation tentatively scheduled for Week 13 (June 15).

Current progress is behind schedule — frontend-backend integration must be completed within 3 days to enable comprehensive testing.

### **Adjournment**

The next meeting will be held in Ingkarni Wardli on Thursday 29<sup>nd</sup> May 2025 at 1:00 PM.

The meeting closed at 2:00 PM.
