Minutes of the Group Meeting

Monday 19 May 2025

Secretary
Zixuan Li
Members
Weian Liu, Silin Ren, Daming Chen, Emmanuel Philipose Antony
Apologies
None.

1.Time and Place

The group meeting for the MCI Group Project was held in online(Teams) at 7:00 **pm on Monday, May 19, 2025.**

2. Test Plan Presentation & Feedback

Zixuan Li presented the draft of the black-box test plan:
Major features are covered with both positive and negative test cases.
Expected and actual results will be recorded in the black-box test template.
Non-functional test suggestions were also included (e.g., performance testing, MongoDB recovery capability).
Weian Liu suggested asking Dr. Lee whether unit tests need to be included, as they are usually the developer's responsibility.
Conclusion: Focus on black-box testing; unit tests are marked as optional or pending.

3. Individual Progress Updates

Emmanuel Philipose Antony
Created the interface for the Movie Description page, still waiting to receive data.
Once the data is integrated, the Movie Description page will be functional.
Plans to continue by connecting the User Profile page afterward.
Requested help from Daming for the Watchlist page: instead of displaying all movies, implement filtered display using a smaller list.
Will also ensure that all movie cards have clickable links that navigate to the movie detail page via ID.
Silin Ren
Completed avatar upload functionality and integrated it with the backend.
Login, signup, and logout functionality are working as expected.
Actively contributing to the black-box test documentation.
Daming Chen
Completed the Discover page, including sorting, filtering, and pagination.
Added pagination to the Search page as well.
Mentioned that the current search uses TMDB API; if filtering Watchlist data locally is required, it must be integrated with backend.

4. Technical Notes

Authentication Module is fully functional.

Most page functionalities are being progressively linked to MongoDB.

Watchlist filtering and reuse of "More to Explore" components will be implemented collaboratively.

Clicking on MovieCard items to navigate to detail pages will be handled by Emmanuel.

Notes:

Prepare for the next group meeting on Friday, May 23, 2025, at 7:00 PM.

Meeting Adjourned: 8:00 PM
