Minutes of the First Client Meeting

Monday 10rd March 2025

Secretary   Zixuan Li
Members   Weian Liu
               Silin Ren
               Daming Chen
               Emmanuel Philipose Antony

Apologies

None.

1 Time and Place

The first client meeting for the MCI Project was held in online(Teams) at 1:00 **pm on Monday, March 10, 2025** .

2 Quorum Announcement

Quorum of the group was present, and that the
meeting, having been duly convened, was ready to proceed with its business.

3 Summary of Previous Meeting

This being the first meeting, there was no previous meeting to summarize.

4 Project Overview and Goals

The project aims to develop an AI-driven movie discovery and personalized recommendation system. The platform will provide users with movie recommendations based on their past behavior, along with features such as movie search, rating, reviews, favorites, and user authentication.

5. Detailed Project Requirements

The following core features were discussed:
1. AI Recommendation Engine: Provide personalized movie recommendations based on user behavior.
2. Movie Search Functionality: Allow users to search for movies and view trending/top-rated movies.
3. Rating and Reviews: Users can rate movies and write reviews.
4. Favorites/Watchlist: Users can save movies to their favorites or watchlist.
5. User Authentication: Users can log in, log out, and modify their profiles.
Additional features (if time permits):
- Admin panel for managing users and content.
- Integration with third-party authentication (e.g., Gmail, Spotify)

6 Technical Discussion

Frontend: React or Angular framework (TypeScript/JavaScript).
Backend: Python for backend development.
AI Model: Use existing AI models for recommendations (no need to build from scratch).
Database: To be decided (further research required).
API: Use free movie database APIs (e.g., IMDb) with limited requests per day.

7 Questions and Clarifications

Movie Database: The team will need to source a free movie database API (e.g., IMDb).
Rating System: A 1-5 star rating system will be implemented.
User Authentication: Basic username/password login will be implemented initially, with potential for third-party authentication in the future.
Project Management: User stories and task boards will be used to manage tasks and track progress.

8 Adjournment

The next meeting will be held online on Tuesday, 18th March 2025, at 1:00 PM. The meeting closed at 2:00 PM.

Notes:
- The team will conduct further research on existing platforms and technologies.
- Progress updates will be provided in the next meeting.
